

Solar Security Light with Motion Detector

Specifications:

| | |
|------------------------|-----------------------|
| Dimension: | 9" x 4" x 3.3" |
| Weight: | 22 oz. |
| LED: | SMD 2835, 48pcs |
| Light output: | 800 – 1000 LM |
| Solar panel: | 5.5V, 3.2W |
| Battery: | 3000mAh |
| Battery type: | Lithium iron ph. |
| Battery life cycle: | Over 2000 times. |
| Battery charging time: | ~8 hours vs. sunlight |
| Light time: | > 500 times. |
| Certificates: | CE, FC, ROHS. |
| Warranty: | 12 months. |

Advantages:

1. High lumen bright light output.
2. Dim light and high light working mode.
3. Microwave radar sensor (10.8G, 2mW). 15 to 30 feet.
4. Photovoltaic sensor, turn on in low light.
5. Easy to install.
6. Aluminum Alloy enclosure for outdoor.
7. Including over-charging protection, short circuit protection, over-temperature protection.
8. Water proof level: IP65.
9. Very durable. Last for long time.
